

# Trellis 2 & Ultrashape Install Guide

## Trellis2 Installation:

Here is a quick guide on how to install **Trellis2** using the ComfyUI-Easy-Install package

You can download and see the latest instructions here:

1. Update your NVIDIA drivers.
2. Install ComfyUI-Easy-Install in a new folder. <https://github.com/Tavris1/ComfyUI-Easy-Install>
3. Switch to Torch 2.8.0 using Add-Ons\Torch-Pack\Torch 2.8.0+cu128.bat.
4. Run the FlashAttention.bat file in the ComfyUI-Easy-Install\Addons folder
5. Run Trellis2.bat in the ComfyUI-Easy-Install\Addons folder (It will download all files for you)
6. Launch ComfyUI by running the [Start ComfyUI FlashAttention.bat](#)

(In case you have 8gb vram add the to the bat file.)

```
--disable-pinned-memory
```

1. You can find all workflows here for download:

[https://drive.google.com/drive/folders/1NTW6CCpFr1oWUgp0vTNMJnxKOydtYpMI?  
usp=sharing](https://drive.google.com/drive/folders/1NTW6CCpFr1oWUgp0vTNMJnxKOydtYpMI?usp=sharing)

Thanks again to

**@ivo**

for creating this setup.

## **Ultrashape Installation:**

1. Download the Ultrashape.bat file that is provided here
2. Place it into your ComfyUI-Easy-Install\Add-ons folder
3. Run the bat file (will automatically download the files and install all requirements)
4. Launch ComfyUI and open the workflow that is attached here to run Trellis2 + Ultrashape together

Download link for Ultrashape.bat file:
